Employment History

FrontEnd Developer at WillWare Technology, Bengaluru

November 2021 — October 2024

As a Front End Developer at Willware Technology, I specialize in developing and optimizing high-performance web applications using my expertise in React typescript and UI5-Web component, CSS and Type Script tools/framework. I collaborate with cross-functional teams to gather requirements, design user interfaces, and implement responsive and user-friendly web applications.

- This is the SAP Petrobras Project, i worked on the front end . We uses UI5 react component Library for front end of this web application.
- Translated designs & wire frames into high-quality code and wrote application interface code via JavaScript following React.js workflows
- Troubleshoot interface software and debugged application codes to improve functionality and performance by 50%
- Optimized components for maximum performance across a vast array of web-capable devices and browsers.

Sr. AR Caller at AnnexMed Pvt Ltd, Chennai

September 2015 — October 2021

- As a Sr. AR Caller at AnnexMed Pvt Ltd, I played a key role in managing accounts receivable for the company, ensuring timely and accurate collections.
- I effectively communicated with insurance companies, patients, and healthcare providers to resolve outstanding issues and secure payments.
- I consistently met and exceeded collection targets while maintaining a high level of professionalism and customer service.
